Company Name : Foxsemicon Integrated Technology Inc.

Established : 2001/04/26

Capital : NT\$ 680 million

Chairman : Yin-Kuang,Liu President : Yin-Kuang,Liu

Business : Research and Development, manufacturing and sale of critical parts,
module assembly and automation equipment in semiconductors, energy
and LCD industries.

Operation Performance

Leading capacity of semiconductor equipment vertically integrated manufacturing

Complete management system of engineering design, manufacturing, quality and supply chain

Have key manufacturing technology and pass professional process certificates

Semiconductor Fab automation and high-performance cleaner technology

Fields-crossed RD and integrated capacity of optics , machinery, electronics control, software and process

System integration of Fab automation and Fab output technology

- Film equipment(CVD, PVD)
- Etching equipment(Etch)
- Chemical mechanical polishing equipment(CMP)
- Testing Equipment(Metrology)
- Fab automation equipment
- pollution control equipment

- Laser cutting equipment
- Laser repair equipment
- Automatic optical inspection equipment
- Check probe lighting equipment
- Panel automation equipment transport
- Panel transport vehicles

- Wafer cutting equipment
- Plasma deposition equipment
- Cell chip automatic transmission equipment
- Solar cell module production line
- LED bulb automatic production

- Semiconductor Factory Automation
- Industrial Automation Robot Application
- Mobile phone production automation equipment
- Factory Planning

- e-Care car action
- cloud computing Health Station(KIOSK)
- Key components of medical equipment

- Environmental equipment automation control
- Wastewater automated control systems
- Supervisory control data acquisition system
